- The pathological changes in the neurone in nervous diseases. 19 pp. 8°. *Philadelphia*, 1901.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1901.
- Pathological report on a case of dermatitis vesiculo-bullosa et gangrenosa mutilans manuum (Duhring), with a consideration on the relations of vascular and nervous changes to spontaneous gangrene and Raynaud's disease. 91-109 pp., 2 pl. 8°. *Philadelphia*, 1901.
Repr. from: J. Exper. M., N. Y., 1901, v.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1901.
- Remarks on the importance of the so-called specific lesions of rabies. 4 pp. 8°. *Philadelphia*, 1901.
Repr. from: Univ. M. Mag., Phila., 1900-1901, xiii.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1901.
- Renault's bodies in a case of vesiculo-bullous dermatitis and gangrene. 4 pp. 8°. *Philadelphia*, 1901.
Repr. from: Univ. M. Mag., Phila., 1900-1901, xiii.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1901.
- A case of complete absence of the visual system in an adult. 7 pp. 8°. *Philadelphia*, 1902.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1902.
- A case of primary degeneration of the pyramidal tracts. 10 pp. 8°. *Philadelphia*, 1902.
Repr. from: J. Nerv. & Ment. Dis., N. Y., 1902, xxix.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1902.
- The sensory segmental area of the umbilicus, as determined by a case of fracture of the tenth thoracic vertebra, with complete compression of the spinal cord, and without knee-jerks and Babinski reflex. 7 pp. 8°. *Philadelphia*, 1902.
Repr. from: Phila. M. J., 1902, ix.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1902.
- Two cases of partial internal hydrocephalus from closure of the intraventricular passages: with remarks on bilateral contractures caused by a unilateral cerebral lesion. 12 pp. 8°. *Philadelphia*, 1902.
Repr. from: Am. J. M. Sc., Phila., 1902, cxxiv.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1902.
- The pathological changes in the nervous system in a case of lead poisoning. pp. 142-152, 1 pl. 8°. *Boston*, 1903.
Repr. from: J. Med. Research, Bost., 1903, x.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1903.
- A physiological, anatomical, and pathological study of the glossopharyngeus and vagus nerves in a case of fracture of the base of the skull. 13 pp., 1 pl., 1 ch. 8°. *Philadelphia*, 1903.
Repr. from: Tr. Coll. Phys., Phila., 1903, xxv.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1903.

Spiller (William G.)—continued.

- A report of two cases of multiple sclerosis, with necropsy; with remarks on muscular atrophy, secondary degeneration, and loss of tendon reflexes, with increased muscular tonicity, occurring in this disease. 13 pp. 8°. *Philadelphia*, 1903.
Repr. from: Am. J. M. Sc., Phila., 1903, cxxv.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1903.
- Traumatic lesions of the spinal cord without fracture of the vertebrae. 11 pp., 1 pl. 8°. [*n. p.*, 1903.]
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1903.
- Congenital spastic rigidity of the limbs, congenital hypertonia, Little's disease, with report of two new cases with necropsy. 16 pp. 8°. *Philadelphia*, 1905.
Repr. from: Penn. M. Bull., Phila., 1904-5, xvii.
In: Univ. Penn. Contrib. Lab. Neuropathol., Phila., 1905.
- General or localized hypotonia of the muscles in childhood, myatonia congenita; report of a case with necropsy. 12 pp. 8°. *Philadelphia*, 1905.
Repr. from: Univ. Penn. M. Bull., Phila., 1904-5, xvii.
In: Univ. Penn. Contrib. Lab. Neuropathol., Phila., 1905.
- The importance in clinical diagnosis of paralysis of associated movements of the eyeballs (Blicklähmung), especially of upward and downward associated movements. 57 pp., 4 l. 8°. [*n. p.*, 1905.]
In: Univ. Penn. Contrib. Lab. Neuropathol., Phila., 1905.
- The occasional clinical resemblance between caries of the vertebrae and lumbothoracic syringomyelia, and the location within the spinal cord of the fibres for the sensations of pain and temperature. 23 pp. 8°. *Philadelphia*, 1905.
Repr. from: Univ. Penn. M. Bull., Phila., 1905-6, xviii.
In: Univ. Penn. Contrib. Lab. Neuropathol., Phila., 1905.
- Primary degeneration of the pyramidal tracts; a study of eight cases, with necropsy. 31 pp. 8°. *Philadelphia*, 1905.
Repr. from: Univ. Penn. M. Bull., Phila., 1904-5, xvii.
In: Univ. Penn. Contrib. Lab., Phila., 1905.
- Abscess of the brain. 24 pp. 8°. *Philadelphia*, 1906.
Repr. from: Univ. Penn. M. Bull., Phila., 1906-7, xix.
In: Univ. Penn. Contrib. Lab. Neuropathol., Phila., 1906.
- The earlier changes in arteriosclerosis of the nervous system. 9 pp. 8°. *Philadelphia*, 1906.
Repr. from: Proc. Path. Soc., Phila., 1904, vii.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1906.
- Lesions of the left first temporal convolution in relation to sensory aphasia. pp. 329-338, 1 pl. 8°. [*Edinburgh*], 1906.
Cutting from: Rev. Neurol. & Psychiat., Edinb., 1906, iv.
In: Univ. Penn. Contrib. Lab. Neuropathol., Phila., 1906.
- Myopathy of the distal type and its relation to the neural form of muscular atrophy (Charcot-Marie, tooth type). 17 pp. 8°. [*n. p.*, 1906.]
In: Univ. Penn. Contrib. Lab. Neuropathol., Phila., 1906.
- A pathologic study of anaurotic family idiocy. 11 pp. 8°. *Philadelphia*, 1906.
Repr. from: Am. J. M. Sc., N. Y., 1905, cxxix.
In: Univ. Penn. Contrib. William Pepper Lab., Phila., 1906.

Spiller (William G.)—continued.

Psychasthenic attacks simulating epilepsy. 13 pp. 8°. [*Boston*, 1906.]

Repr. from: J. Abnorm. Psychol., Bost., 1906, i.
